THE FLAWLESS GLOW

Kaya launches blemish control formula and comedone control serum, strengthening the acne care portfolio with new quicker-action formulations

Blemishes and comedones (blackheads and whiteheads) are two of the most common skin concerns, especially those with oily or acne prone skin. This season, Kaya adds to its acne care portfolio with the newly formulated Blemish Control Formula and Comedone Control Serum for flawless and healthy skin.

Blemish control formula
The Blemish Control Formula by Kaya is a fast-acting dual-benefit formula with botanical extracts that visibly clears post acne marks in two weeks and works on active acne to reduce pimple size in 12 hours. Powered with anti-bacterial properties, this formula prevents further breakouts as well. Regular usage of the cream lightens blemishes while the presence of tomato extracts with tea tree oil make it safe and efficacious for daily use.

Key Ingredients
Aqua, butylene glycol, PEG-60 almond glycerides, caprylyl glycol, glycerine, carbomer, nordihydroguaric acid, oleanolic acid, PEG-4 olivate, lycopersicum esculanthum extract, anthemis nobilis extract, arctium lappa root extract, zinc PCA, allantoin, salicylic acid, melaleuca alternifolia leaf oil, methylparaben, propylparaben.

Comedone Control Serum
The Comedone Control Serum by Kaya is powered with botanical extracts that targets blackheads and whiteheads and also active acne. Boosted with a radical new fast-act-
